

# What is the Effect of X on Y?

*Evidence from a Personal Anecdote*

Kyle Butts

September 3, 2021

# Outline

Common Items

Table

Figures

# Components

## *Bullet Points & Button*

This section highlights commonly used components and their theming

- Can emphasize with **the alert command**
- To include things in appendix, you must first label the slide and the appendix slide and then include a hyperlink:

► Appendix

# Components

## *Numbered Lists*

You can also use numbered items that look a bit more professional

1. Pretty good
2. To include things in appendix

# Components

## *Citations*

Topic 1: Spatial Frictions [Fajgelbaum et al. (2018), Hsieh and Moretti (2019), and Moretti (2011)]

Topic 2: Blah [Suárez Serrato and Zidar (2016)]

# Components

## Blocks

### Regression Specification

The main specification is as follows:

$$y_{it} = X_{it}\beta + \mu_i + \varepsilon_{it}$$

# Components

## *Colors*

Test sentence with \color{navy}

Test sentence with \color{purple}

Test sentence with \color{kelly}

Test sentence with \color{ruby}

Test sentence with \color{alice}

Test sentence with \color{daisy}

Test sentence with \color{coral}

Test sentence with \color{cranbery}

Test sentence with \color{slate}

Test sentence with \color{jet}

Test sentence with \color{asher}

# Components

## *Two Columns*

---

### Column 1

1. Bullet points for this column that  
can go over lines
2. b
3. c

---

### Column 2

- a
- b
- c

# Components

## *Two Columns with Figure*

- A point about the figure that is potentially important.
- Another point about the figure that is also potentially important.

# Outline

Common Items

Table

Figures

*Table: Regression Results*

	<i>Dependent variable: Overall Rating</i>	
	(1)	(2)
Handling of Complaints	0.692*** (0.149)	0.682*** (0.129)
No Special Privileges	-0.104 (0.135)	-0.103 (0.129)
Opportunity to Learn	0.249 (0.160)	0.238* (0.139)
Performance-Based Raises	-0.033 (0.202)	
Too Critical	0.015 (0.147)	
Advancement	11.011 (11.704)	11.258 (7.318)
Observations	30	30
R <sup>2</sup>	0.715	0.715

Notes. \* $p < 0.1$ ; \*\* $p < 0.05$ ; \*\*\* $p < 0.01$ .

Use `\marktopleft{name}` and `\markbottomright{name}` to create box.

Figures

富嶽三十六景 神奈川沖  
波裏

# Figure

## *Full-size Figures*

You can use the command `\imageframe{img-path}` and it will create a full-frame of a picture.

- Ideally, your figure is the same aspect as the frame 4 : 3 or 16 : 9 or else there will be white space in one of the directions.

Figure
