

CLASS NOTES

Kyle Butts
Univ. of Colorado, Boulder

SECTION 1

Normal Distribution

This is another paragraph, contains some text to test the paragraph interlining, paragraph indentation and Marginal Utility is some other features. Also, is easy to see how new paragraphs are defined by simply entering a double blank space.

Marginal Utility is Rating ●●●●●●●●

1.1. Large of Law Numbers

There are custom boxes for definitions and examples:

Definition My definition text here

Bandwidth and noise

A band limited signal cannot be time limited and a time-limited signal cannot be band limited and options.

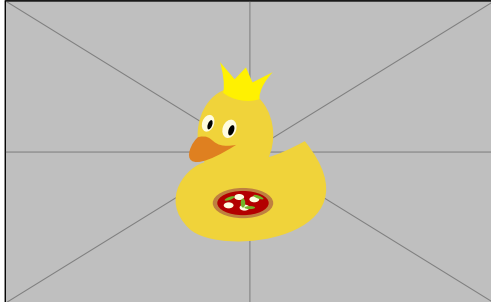

These boxes can be put in any color desired:

Definition My definition text here

Bandwidth and noise

A band limited signal cannot be time limited and a time-limited signal cannot be band limited and options.

Figure 1: Duck

Notes: A band limited signal cannot be time limited and a time-limited signal cannot be band limited and options.
